

Environmental Health & Safety Policy

We at Access Business Group believe that the proper use and management of the world's resources are the responsibilities of industry and individuals alike. We recognize our responsibility and role in promoting environmental stewardship and protecting the health and safety of our people and the communities where we operate.

To that end we are committed to:

Maintaining compliance with applicable environmental, health, and safety laws, regulations and other requirements to which the Corporation subscribes.

Continually improving our environmental health and safety performance.

Reducing the impact of our operations on the environment by conserving resources through: reuse and recycling; the prevention of pollution; the elimination of hazards; and the responsible use of energy.

Training and motivating our employees to take personal accountability for protecting the environment, and, creating a safe and healthy workplace.

Measuring the progress of our environmental health and safety programs through periodic assessments and audits.

Regularly reviewing and improving this policy, communicating it to persons working for, or on behalf of Access Business Group, and making it available to interested stakeholders.
